I didn't really like it. It wasn't very interesting. I didn't even realize that I finished it until the credits popped up.. ok for this game i give a thumbs down....its not all what it seems to be with the vidoes of it...glad i got it on sale...so yeah...its not great. Yes Minidrivers...First of all this game is **NOT** fun!...It's starts allright but the AI is so horrible that it kills the fun in the game over time...It's just not fun when you restart the track for the 35 time because the AI is suicidal, murderous and other horrible things...This game name should have been "Crash and Burn" and you should be driving Monster Trucks THEN i could excuse that the AI is what it is...I've played this game about 34-35 hours now and i've come to the point where i hate this game...The developers should have put more work in the AI cause at my point of view it kills the fun of the WHOLE game.

You can earn stars on the differently tracks by winning on them and then there is a championship mode...No qualifying...You start 22 EVERY time on 21 tracks...Can you imagine the carnage and destruction!?! It's incredible my Keyboard and Mouse survived it...I'm not a violent person but this mess almost made me into Charles Manson...On top of that there is 3 difficult settings in Championship mode but the only different is that the AI drives alittle faster but just as stupid as allways. The game has weapons...They are lying on the track and it's random what you pick up...Like the game they are fun in the start but they are just annoying me now.

Peace out Peeps!. me when they add the patch that has anime ♥♥♥♥♥s. This game is a package with both competitive gameplay and fun! Almost flawless controls and game mechanics, cool and unique arenas and a ton of characters to use and unlock. I would recommend this game to anyone who wants to have some fun competition with friends or by yourself!

I made a Let's Play of ChargeShot, check it out: <https://www.youtube.com/watch?v=pV9m3Or8Dis>. its a great game overall but I personally get bored easily with it. maybe they should add more factions or units as starters. Did I just buy movie DLC?

Classic MMO from 2006. Still manages to be innovative with its unique skill leveling system and abundant classes.. 9/10
Great little game. Funny and awesome. Over in about 20 minutes, but it's worth it.. Looove the ninja world! This game has enough action and magic to make it an amazing part of your library! I highly recomend this game to anyone. One could only wish that more games like this come to existence. :). Dirt 2 is great, I was a little miffed by the price but the content so far has been amazing & I'm very much looking forward to the return of Wales. Greece and Finland wouldn't go a miss either ;) ;) nudge nudge codies.. Tense and very difficult, this isn't a game for everybody. Your interface is very faliable, and at times comes under direct attack. You will lose your visual display, your communications will be cut preventing you from issuing orders, your troops may panic, or go space crazy at times. If you can't stand games that use the interface as a difficulty mechanic and occasionally remove control from your hands, this isn't going to be your game.

Having said that you will not be getting your hands dirty in this game. Instead you get a chance to be one of those guys that sits in a comfy chair back on the ship, watching the commando team as it breaches the spooky alien vessel through a glowing CRT, sipping a fine scotch whiskey as the whole mission goes pear-shapped and everybody gets killed. Don't worry, you can always hire another crew. The important thing is that you didn't even need to wear pants for this operation.. Simple & Fun. Enjoyed from start to finish. Cool OST if you like Metal Gear.. Very entertaining, and you get to play the common route for free so there's nothing stopping you from giving it a shot!
